# QLIMA SENSE PREMIUM QUALITY FUELS

---

## The certainty of Qlima Premium Quality Fuels

Qlima is the European market leader for heater fuels. After more than 30 years of innovation, today Qlima produces only premium quality fuels. Our secret lies in the combination of our unique in-house 'one stop from ship to shop' production concept and our highly qualified dedicated people, who are willing to realise breakthroughs. The quality of our fuel is continuously monitored by independent external laboratories. These organizations belong to the best in the market for independent inspections, testing and verifications. The end result is the most clean, pure and powerful fuel with the best performances available in the market.

In its product and packaging development, Qlima constantly respects the environment. A good example is the introduction of the PET eco can – a Qlima innovation that ensures fuel cans are now 100% recyclable. All in all Qlima is able to guarantee the highest quality, efficiency and comfort, thus providing you with an ultimate heating experience.

The certainty of Qlima Premium Quality Fuels; highest quality, highest efficiency, highest comfort.

Qlima advises consumers to use Qlima Premium Quality Fuels in combination with a Qlima heater that has a laser burner system, in order to achieve the ultimate heating experience.
