**ATTENZIONE:** per

evitare incidenti con il bordo tagliente, il bordo di rifinitura deve rimanere in posizione sul bordo superiore del timpano finché i pannelli del tetto destro e sinistro non sono stati posizionati.

PRUDENZA:

Per evitare incidenti con lo spigolo vivo del rivestimento del bordo, questo rivestimento deve rimanere in posizione sul bordo superiore del timpano finché i pannelli del tetto destro e sinistro non sono in posizione.

AVVERTIMENTO:

Per evitare incidenti con spigoli vivi, la scatola perimetrale dovrebbe rimanere in posizione sul bordo superiore del timpano fino a quando i pannelli sinistro e destro non saranno in posizione.
