INSTRUCTION MANUAL

SOLAR LED WALL LIGHT

INTRODUCTION

Thank you for selecting and buying V-TAC product. V-TAC will serve you the best. Please read these instructions carefully before starting the installation and keep this manual handy for future reference. If you have any another query, please contact our dealer or local vendor from whom you have purchased the product. They are trained and ready to serve you at the best. The warranty is valid for 2 years from the date of purchase. The warranty does not apply to damage caused by incorrect installation or abnormal wear and tear. The company gives no warranty against damage to any surface due to incorrect removal and installation of the product. The products are suitable for 10-12 Hours Daily operation. Usage of product for 24 Hours a day would void the warranty. This product is warranted for manufacturing defects only.

This marking indicates that this product should not be disposed of with other household wastes.

Caution, risk of electric shock.

INSTALLATION

- 1. Please use the measure card to mark holes position.
- 2. Drill 2 holes(6mm, depth 50mm) with a spacing of 80mm.
- 3. Fix the expansion plugs in the holes.
- 4. Fix the screws into the expansion plugs, allow the screws to protrude slightly around 3-5mm.
- 5. Turn on the lamp and set desired work mode.
- 6. Hang the lamp on the screws to secure it to the wall.

TWO OPTIONAL WORK MODES

ON/OFF/Switch Work Mode

- 1. Press the button 1st time, the upper light flashes once, lamp enter Mode A.
- 2. Press the button 2nd time, the upper light flashes twice, lamp enter Mode B.
- 3. Press the button 3rd time, the upper light flashes 3 times, lamp turns off.

MODE A

Lamp automatically lights up at night, automatically turns to full brightness when motion is detected in the range $\leq 6m$, and dims to low brightness (upper light on, down light on) after 10 seconds of no motion.

MODE B

Lamp automatically lights up at night, automatically turns to full brightness when motion is detected in the range $\leq 6m$, and dims to low brightness (upper light on, down light off) after 10 seconds of no motion.
