

BIO FIREPLACE SUTRI

Sutri is a device designed for built-in to be built-in and should be mounted to the wall only by a certified installer. The device should be mounted in a horizontal position (permissible horizontal deviation is +/- 5 degrees). The installation must guarantee the stability of the unit's operation. Before installation, check the specifications described in the section "Important safety instructions".

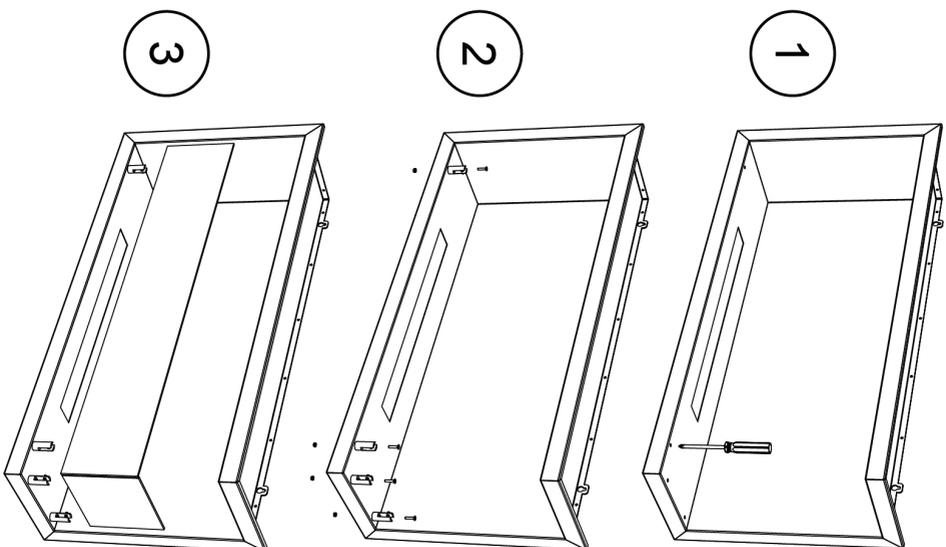

Do not place a filled biofuel container, as you may unnecessarily spill fuel on part of the appliance or its surroundings. Before or after installing the appliance, make sure that the place on which the appliance is mounted can support its weight.

GLASS INSTALATION MANUAL

Before mounting the bio-fireplace on the wall, glass brackets must be installed.

The attachment points must be removed by pressing on them with a screwdriver or other tool.!

Glass holders must be attached using the screws and nuts included in the kit.

The glass should be inserted into the holders from top to bottom. Tighten the glass using the pins in the holders.
